Education

Government Engineering College, Sonbhadra

Dec 2020 – May 2024

Bachelors of Technology in the branch of Computer Science and Engineering

SGPA: 8.23/10

Coursework: Data Structures and Algorithm, Object-Oriented Programming System, Operating System, Database Management Systems, Computer Networks

Skills

Programming/Languages: C , C++ , Python , JavaScript , Data Structures and Algorithm , HTML+CSS

Libraries: C++ STL , React JS

Web Dev Tools: NodeJs , ExpressJs , VScode , Git+GitHub

Frameworks: ReactJs , Tailwind CSS , Bootstrap

Database: MongoDB

Problem Solving , Self-Learning , Presentation , Adaptability

Experience

CodeClause Pvt. Ltd.

Aug 2023 – Nov 2023

Web Development Intern

Remote

- Contributed to the development and upkeep of web applications.
- Executed **3** projects, enriching my skill set and knowledge base.
- Engaged in team efforts to design, implement, and test website features with the development team.
- **Used Technologies:** HTML,CSS,JavaScript and MERN stack

Projects

Real Editor | *ReactJS, NodeJS, ExpressJS, Socket.io* [🐙](#) [🔗](#)

- Developed a collaborative editor interface using React components to enable seamless real-time collaboration.
- Implemented Socket.IO to establish WebSocket connections, facilitating instant communication between clients and the server.
- Integrated middleware for secure user authentication and authorization to safeguard sensitive operations.
- Enhanced performance and collected user feedback to drive ongoing refinement.

Ecommerce Site | *ReactJS, MongoDB, ExpressJS, NodeJS* [🐙](#) [🔗](#)

- Engineered a responsive and intuitive interface for the eCommerce platform using React components.
- Implemented user registration, login, and logout features to ensure secure management of user accounts.
- Devised a database schema for efficient storage and retrieval of product information, user data, and order details.
- Coordinated the deployment of the eCommerce application on cloud platforms, including Netlify and Render.

Admin Dashboard | *ReactJS, JavaScript, Tailwind CSS, Syncfusion* [🐙](#) [🔗](#)

- Crafted and engineered a responsive and aesthetically pleasing dashboard interface employing React components.
- Executed a diverse range charts, graphs, and tables to visualize data and provide insights into key metrics.
- Managed the deployment of the admin dashboard application on cloud platforms like Netlify.

Movix App | *HTML, CSS, ReactJS, Redux, JavaScript, API* [🐙](#) [🔗](#)

- Applied API integration to offer dynamic content, such as movie listings and personalized recommendations, enhancing the functionality of MOVIX.
- Integrated Redux for centralized state management in MOVIX, optimizing performance and scalability across the platform.
- Leveraged API integration to provide users with up-to-date content and services, enhancing the functionality and usability of the MOVIX app.

Achievements

- Ranked **127th** out of 5k+ students in Coding Round of a Coding Velocity, a coding contest conducted on Unstop. [🔗](#)
- Solved over **350+** questions of data structures and algorithms on GeeksForGeeks with **180+** days of consistency. [🔗](#)
- Mastered over **325+** questions of data structures and algorithms on LeetCode with **180+** days of consistency. [🔗](#)
- Completed **3P's** Power Placement Process training program. [🔗](#)
