## EDUCATION

### Government Engineering College

B.Tech - Computer Science and Engineering - **CGPA - 8.3**

Nov 2020 – Jun 2024

Sonbhadra, Uttar Pradesh

### G.N. National Public School

Senior Secondary - **Percentage - 82**

Mar 2016 – Apr 2017

Gorakhpur, Uttar Pradesh

### G.N. National Public School

High School - **CGPA - 10**

Mar 2018 – Apr 2019

Gorakhpur, Uttar Pradesh

## EXPERIENCE

### SDE Intern at SpriteEra Pvt. Ltd. | MERN

Mar 2024 - Aug 2024

- Collaboratively designed and developed SpriteEra's website, achieving 100 percent responsiveness and improving performance by 30 percent.
- Worked on multiple projects, including a customizable e-commerce platform and a news website for a client, enhancing their user experience and scalability.
- Acquired strong leadership and teamwork skills, effectively managing feature additions, resolving issues, and ensuring timely project delivery.
- Optimized the codebase for reusability, reducing development time by 20 percent and improving load times across platforms.

## PROJECTS

### Blogging Site | ReactJS, NodeJS, ExpressJS, MongoDB

- Built a robust blogging platform with easy content management for posting, liking, and commenting.
- Used advanced algorithms to highlight trending blogs, boosting user engagement and discovery.

### Real Editor | ReactJS, NodeJS, ExpressJS, Socket.io

- Developed a collaborative editor interface using React components to enable seamless real-time collaboration.
- Implemented Socket.IO to establish WebSocket connections, facilitating instant communication between clients and the server.

### Ecommerce Website | MERN, Cloudinary

- Designed a responsive and intuitive interface for the eCommerce platform using React components.
- During the e-commerce website development, I independently tackled over 20+ real-life challenges.

### Admin Dashboard | React, Context, API

- Developed an admin dashboard with strong authentication protocols.
- Created a detailed company table allowing CRUD operations and advanced search capabilities.

### Movix App | HTML, CSS, ReactJS, Redux, JavaScript, API

- Enhanced MOVIX by integrating APIs for dynamic content like movie listings and personalized recommendations.
- Optimized the performance and scalability with Redux for centralized state management.

## TECHNICAL SKILLS

**Programming/Languages:** C , C++ , JavaScript , Data Structures and Algorithm , HTML+CSS

**Libraries:** C++ STL , React JS

**Web Dev Tools:** NodeJs , ExpressJs , VScode , Git+GitHub

**Frameworks:** NextJs , Tailwind CSS

**Database:** MongoDB, MySQL

## Coding Platforms

- **GeeksforGeeks** Solved 400+ Problems
- **Leetcode:** Solved 350+ Problems — Max Rating 1334

## ACHIEVEMENTS

- Secured **127th** Position in Coding Round of Coding Velocity of Unstop.
- Completed **3P's** Power Placement Process training program.
- Certified **Web Developer (Simplilearn)** with demonstrated proficiency in modern web development practices
